

LE BUI MINH NHAN

Senior / Lead Angular Developer

📞 (+84) 368495171 | ✉ lebuiminhnhan@gmail.com | 📍 Ho Chi Minh City, Vietnam | 📅 DOB: August 15, 1997

CAREER OBJECTIVE

To excel as a Senior/Lead Angular Software Developer, leveraging over 6 years of experience in developing high-quality web applications using Angular (v2+ to 19). Skilled in modern features such as Signal, Signal Forms, NgRx Store, Signal Store, Change Detection, and performance optimization. Passionate about driving AI-assisted development (AIDLC) practices — using tools like Kiro and writing steering documents to guide teams — while delivering robust solutions to complex technical challenges.

EDUCATION

Tra Vinh University – Bachelor of Engineering in Information Technology
GPA: 3.19 / 4.0

Graduated 2019

TECHNICAL SKILLS

Front-end:

- Angular (v2+ to 19): Signal, Signal Forms, NgRx Store, Signal Store, Change Detection, performance optimization
- HTML5, CSS3, Bootstrap, JavaScript, TypeScript, jQuery, JSON, LodashJS, HighchartsJS, Angular Material, Styled Components, SASS/SCSS
- Vue.js and React.js (each ~4 months)

AI-Assisted Development (AIDLC):

- Kiro (AI IDE by AWS): Specs, hooks, and steering-driven development workflows
- Proficient in writing AI Steering Documents (steering.md) to guide AI behavior, enforce coding standards, and maintain architecture consistency across teams
- AI Development Lifecycle (AIDLC): Requirement → Spec → AI-assisted implementation → Review → Iterate
- Tools: GitHub Copilot, ChatGPT, Claude (Anthropic) for code generation, review, and documentation

Back-end:

- C#, .NET, Node.js

Mobile:

- Angular Ionic (3 months), Xamarin Forms (6 months)

Database:

- MySQL, SQL Server, MongoDB, Firebase Firestore

Tools & Others:

- Visual Studio Code, Git, Postman, Adobe CS6, Figma
- Strong OOP, Functional Programming, problem-solving; proficient in English communication

PROFESSIONAL SUMMARY

- Over 6 years of experience as a Front-end Developer specializing in Angular (v2+ to 19), with expertise in TypeScript, Signal, Signal Forms, NgRx Store, Signal Store, and performance optimization.
- Experienced building Angular applications (v4, 8, 10, 12, 14–16, 17–19) in e-commerce, banking portals, automation tools, and management systems.
- Actively practices AI-assisted development using Kiro IDE, writing steering.md documents and following AIDLC workflows to improve team consistency and code quality.
- Led and mentored mobile app teams using Angular Ionic (3 months) and Xamarin Forms (6 months).
- Worked on Vue.js and React.js projects (~4 months each), demonstrating multi-framework adaptability.
- Experienced leading teams of 2–4 developers within large cross-functional squads; strong communicator in English and Vietnamese.

WORK EXPERIENCE

Orient Commercial Joint Stock Bank (OCB) – Senior Angular Developer

10/2023 – Present

- Mentor a team of 3 developers within a 50-member cross-functional squad (Front-end, Back-end, BA).
- Primary developer for critical features: payment, transfer, account transactions, customer service registration, marketing workflows via Engage, and CRUD-based management tools.
- Spearheaded migration of the internal portal from Angular 17 to 19, implementing Signal, Signal Forms, and Signal Store for improved performance and reactivity.
- Introduced AI-assisted development practices using Kiro and AIDLC workflows; authored steering.md documents to standardize AI usage across the frontend team. Suggest ideas to build internal application.
- Domain: Banking, internal tools, customer-facing portals.

HCLTech Vietnam – Senior Software Engineer

02/2023 – 10/2023

- Built internal automation tools from scratch using Angular 14–16 with modular architecture and NgRx Store state management.
- Contributed to a React 17 project for 4 months, focusing on component-level front-end development.
- Domain: Internal tool automation.

TPS Software – Senior Developer

06/2019 – 01/2023

- Worked in teams of 3–9 members developing web applications in Angular 4, 8, 10, and 12.
- Specialized in e-commerce and management systems with heavy CRUD operations, SASS/SCSS, and Styled Components.
- Contributed to mobile development using Angular Ionic (3 months) and Xamarin Forms (6 months).
- Domain: E-commerce, management systems.

BE Solutions – .NET Intern

06/2018 – 08/2018

- Gained foundational experience in .NET and front-end development; supported senior developers on small-scale web projects.
